## THE KROEGER PIANO.

Testimonial to Agent Bergstrom

From a Celebrated Pianist.

(P. C. Advertiser, January 10, 1896.)

Honolulu, H. I., December 28, 1895.

J. W. BERGSTROM AGENT KROEGER PIANO

DEAR SIR—It gives me much pleasure to

testify to the merits of the Kroeger Cabri-

et Grand Piano used by me at the series of

concerts given at the Y. M. C. A. Hall

by the Ovile Music Concert Company.

The piano has a very superior tone quality

and the action is perfect. I was very fortu-

nate in securing such an instrument.

Yours very faithfully,

EDWARD SCHAFER,

Musin Concert Company.

J. W. BERGSTROM,

Pianos.

## CLARKE'S WORLD-FAMED

## Blood Mixture

## THE GREAT BLOOD PURIFIER & RESTORER

For cleansing and clearing the blood from all  
impurities, it cannot be too highly recommended.

For Scrofula, Scurvy, Eczema,

Pimples, Skin and Blood Diseases,

Sores of all kinds, its effects are

marvelous.

It Cures Old Sores.

Cures Ulcerated Sores on the Neck.

Cures Ulcerated Sores Leg.

Cures Blackheads or Pimples on the Face.

Cures Sores on the Head.

Cures Blood and Skin Diseases.

Cures Glandular swellings.

Clears the Blood from all Impure Matter.

Clears the Skin from all impure Matter.

As this mixture is so strong to the taste, and

warranted from something injurious to

the most delicate constitutions of either sex,

the proprietors solicit sufferers to give it a trial to

test its value.

THOUSANDS OF TESTIMONIALS

From All Parts of the World.

Sold in Bottles 25¢, 4d., and in cases containing

six times the quantity, the each sufficient to

effect a permanent cure in the great majority

of long-standing cases. BY ALL CHEMISTS

AND PATENT MEDICINE VENDORS

THROUGHOUT THE WORLD. Proprietors,

THOMAS CLARKE, Lincoln, England.

Caution.—Ask for Clarke's Blood Mixture,

and beware of worthless imitations or sub-  
stitutes.

## WERE SHORT SESSIONS.

Senate and House Cleaning Up  
Preliminary Work.

## MR. DAMON READY FOR QUESTIONS

Auditor-General Makes His Report.  
Hilo Street Bill on Its Way to Investigation—Representatives Willing to Economize on Printing

**FRIDAY, Feb. 28.**  
The Senate held a very short session Friday morning. After the opening preliminaries a communication from the House was read, announcing that the Homestead lease bill had passed that body. The report of the Auditor General was also received.

Senator Rice from the Committee on Printing reported Senator Lyman's bill for the improvement of the streets of Hilo, also official copies of the Homestead lease bill and Current Accounts bill as amended. Minister Damon's bill to provide \$15,000 for the expenses of the Legislature passed the second reading and was referred to the printing committee. The Act to further provide for the payment of current accounts passed the final reading. The bill referring to Homestead leases also passed the third reading. There were no dissenting votes on either bill.

Senator Lyman's Hilo street bill went to the committee on Public Lands and Internal Improvements on the first reading.

The House bill "Authorizing the Minister of the Interior to make a certain class of leases; amending Sections 384 and 385 of the Civil Code, relating to fisheries."

House Bill No. 2, relating to the creation of an additional port of entry in the collection district of Kealakekua, Hawaii, passed its final reading unanimously.

At 10:20 the House adjourned, no further business being in sight.

Clerk read minutes of previous session, which, on motion, were adopted as read.

The Clerk read a communication from the Auditor-General on submitting his annual report.

On motion of Rep. Winston, it was ordered laid on the table to be considered later.

Rep. Hanuna referred to the resolution passed a few days ago relative to the translating of the report of the Board of Health on the cholera epidemic. Under a suspension of rules, he moved a reconsideration of the vote. Carried.

Rep. Richards, as one of the printing committee, stated that the translation and printing would cost \$300, and Mr. Hanuna had expressed a wish that the vote be reconsidered on the score of economy.

Rep. Winston, from the Committee on Commerce, read the committee report favoring House Bill No. 2, authorizing the opening of Kealakekua as an additional port of entry.

Rep. Richards moved that the report be laid on the table to be considered with the bill.

Rep. Kamaooha amended the motion to read "to be made special order of the day." Carried, and bill passed second reading and ordered typewritten.

Secretary read Senate Bill No. 3, relating to biennial periods. Passed unanimously.

Rep. Robertson gave notice that a meeting of the joint committee on foreign relations would meet in the Foreign office at 2 p.m., and the joint committee on Registration bill would meet at 3 p.m.

Adjourned.

## House of Representatives.

**SATURDAY, February 29**

Rep. Richards reported House Bill No. 2, relating to the creation of an additional port of entry in the collection district of Kealakekua, Hawaii, printed.

Rep. Hanuna gave notice of his intention to introduce an Act amending Sections 384 and 385 of the Civil Code, relating to fisheries.

House Bill No. 2, relating to the creation of an additional port of entry and departure of foreign vessels in the collection district of Kealakekua, Hawaii, passed its final reading unanimously.

At 10:20 the House adjourned, no further business being in sight.

**A SHIPWRECKED CREW.**

The Mattie E Dyer Lost February 22d.

**WRECKED ON FRENCH FRIGATE.**

Twenty-three Men and all Saved. Two Boats Out Four Days—One Seven and One Eight—Not a Drop of Water to Drink.

The Inter-Island steamer Ke Au Hou arrived from Kauai yesterday morning with Captain Mockler and crew, numbering in all twenty-three men, of the sealing schooner Mattie E. Dyer, wrecked on French Frigate.

Shoals at 3:30 o'clock on the morning of February 22, quickly as possible killed a sheep and gave them an unlimited supply of potatoes. These were cooked for the wrecked men by the natives.

According to the captain, the wreck was due to south-west currents. At the time of the accident the vessel was steering a true S.W. course and the wind was blowing to the westward, and, he believed, was at least eighty

of some kind, while the fourth had nothing and was taken in tow by one of the others.

# Hawaiian Gazette.

SEMI-WEEKLY.

ISSUED TUESDAYS AND FRIDAYS

W. R. FARRINGTON, EDITOR.

TUESDAY. MARCH 3 1896

It appears that Minister Willis' plans have been changed since the official denial of a few weeks ago, and that he has decided to take a short vacation in the States. Minister Willis has had a hard place to fill during his stay in this country, and a few months recuperation will undoubtedly be thrice welcome.

THE editor of Honolulu's latest weekly publication announces that it will be the policy of his paper not to antagonize anyone. This sounds quiet and comfortable, but, if the announcement is carried out to the letter, our contemporary will probably find that, in endeavoring to satisfy everybody, his friends that amount to anything will be few and far between.

If the management of Wirth's Circus have made money for themselves during their stay here, they have also turned a welcome penny to the coffers of many of our local organizations. The people have been amused and no one will be inclined to be jealous of what money the circus may have gained. They have worked hard for it.

AMELIE RIVES CHANLER, after a short season of divorced widowhood, has succeeded in capturing a man with a title, and who spells his name with an itzy. After she gets through spending good American coin on the new husband with a title, she will probably return to her native health and get out a book giving American girls some good advice that won't recommend human beings with names, but no brains, for husbands.

WITH Corea's king in St. Petersburg and the men representing Russian influence taking an active hand in the affairs of the peninsula kingdom, it would seem that Russia has not yet given up the land-grab game in the Orient. Though Japan will doubtless fuss and fume and possibly come to blows, it can be only a matter of a comparatively short time before Russia establishes complete suzerainty over Corea and obtain the advantages of all its winter seaports.

SENATOR BROWN says the relative amount of taxes paid and appropriations received by the different islands is a matter within the discretionary powers of the Finance Committee to make public. There is reason why these figures should not be made public. The desire to know the moneys paid to each island may be simply the result of a little rivalry between the islands, but it is a matter in which the public is interested. The Minister of Finance has the comparative figures at his command; has offered to make them public, and we know of no reason why anyone should stand in the way of his doing it.

ALTHOUGH the report of the Auditor-General is much shorter than the one made to the special session, in the few words this official offers, he brings forward very conclusive evidence of the necessity of a revision of the audit law. With the auditing department conducted on a new and business-like system which will at least give the Auditor-General an opportunity to have an eye on the bookkeeping of the departments, there would be no records of embezzlements continuing for nearly four years or continued inefficiency of bookkeeping without some attempt to create a change. The auditing department can and should be made a most efficient arm of the Government.

THE report of the Senate Committee on Education, indorsing the slightly increased appropriation for the Bureau of Public Instruction, ought to meet with the approval of both Houses of the Legislature. Of

all places where a parsimonious policy can do the greatest injury, the Department of Public Instruction stands the highest. Improved educational advantages are public improvements that will return a high rate of interest to this country and constitute a field for investment that the country cannot afford to neglect.

IT is always with combined feelings of regret and pleasure that a community learns of the retirement of one of its active business men. Success' merits' congratulation but at the same time the business community never likes to loose the active associates of one of the staunch members. Mr. Alexander Young whose contemplated retirement has been announced has well earned the rest from business cares which he now contemplates. His business career has been a most successful one and although he gives up the personal management of the corporation with which he has been most prominently connected, his capital and progressive influence will continue to be centred here and the people of Hawaii will share in the benefit.

THE preliminary report of the Minister of Finance shows that in our country, where the corporation interests are predominant, these interests pay only three-fifths the amount of taxes paid by individuals. When individuals pay direct taxes amounting to \$92,287 76, and corporations, whose returns to the Interior Department show an invested capital of \$27,000,000, pay only \$72,004 61, the people ought to suggest to their representatives that the individuals have carried the major burden long enough. If some of the men who are so anxious for an opium revenue would turn their attention to a more equitable adjustment of the tax system, they would discover a source of revenue that would put opium in the shade. They would at the same time be doing the people of the country a service which would not be questioned as to its good influence and beneficial returns.

FOLLOWING close upon the demonstration, by an evening paper, that opinions may be influenced according to the amount of patronage received, comes the statement that the liquor dealers intend boycotting the ADVERTISER on account of "its apparent antagonism to the liquor interests." One paper having sacrificed all claims to possessing an established principle—except when the principle pays coin—it may be taken for granted that this paper will fall into line if brought under pressure. If certain businessmen withdraw advertisements from this paper it is their lookout. Gain or loss of advertisements will not influence our policy for or against the liquor or any other interests. We shall treat our friends and those who wish to term themselves our enemies with equal courtesy, though we do not anticipate agreeing with them on every point. Our principles are established, and can be depended upon.

The business activity and the quiet, but powerful, Christian influence of John T. Waterhouse will be sadly missed in this country.

Mr. Waterhouse was practically stricken down in the prime of life, though in years he had passed the meridian. Always closely attentive to his business cares up to within a comparatively short time, the news of his death causes a sad and unexpected blow to the community. Coming to this country when a boy, Mr. Waterhouse has proved true to the best interests of the land of his adoption and of his fellow-men. Never a seeker for political preferment, he held many positions of trust and gained the full confidence of the people. In religious labors he was always in the foreground, and his earnest

church workers. Mr. Waterhouse's influence in all the walks of life has been a power for good, and his good works stand, a fitting monument to his name.

## WHEN ALL ARE "ABSOLUTELY GOOD."

The query whether, when the millennium is reached and all people are absolutely good, there will be any poor people forms the topic of an interesting discussion in the Chicago Advance, a Congregational publication. It is well said that the question is more curious than practical, and one which the people of this generation or a good many to follow will never see the solution of. The Biblical promise that "the poor shall never cease out of the land" might dishearten the semi-religionists who want the missionaries to stay away from Africa because the poor heathen there will be better off in the next world if they are relieved of the responsibility of ever having been enlightened beyond the most barbarous heathenism. They would let the rich take care of themselves, and the poor make the best of it.

The writer in the Advance, however, seeks to show that the poor, ministered to in the love and wisdom of the Gospel, become the riches of the social fabric. Here, again, those classed as God's poor might raise the objection that their large bank account, in the general uplifting of society, was entirely too theoretical and lacking in the practical returns that minister to physical comforts. But the poor man's conscience is clearer than the one whose responsibilities toward his fellow men are greater simply on account of his wealth.

In a strictly moral sense the property of the rich man is constantly encumbered with the wants of the poor, and he is constantly scheming to pay his debts. "Stewardship is the solution of our problems of rich and poor, capital and labor, the wise and the unwise, and not some pagan device to oppress or annihilate the poor, nor some communistic scheme to scale possessions down to a dead level by which the souls of men would become equally dead. And this is no hardship—except to avarice. What we ourselves are to become depends in large measure on the use we shall make of the poor. If commerce treats the poor as utilities, it becomes hard and dehumanized; if culture treats the poor with contempt, it becomes narrow, selfish and punctiliously coarse; a ministry that does not minister to the poor is leavened with the leaven of the Pharisees and Sadducees. Wealth broadens, strengthens and purifies when it is consecrated: culture dignifies in proportion to its lowliness, and its height is measured by the breadth of its sympathies."

It is undoubtedly healthful, moral exercise to contemplate what classes will be reckoned as poor, and what the conditions will be when all people are "absolutely good." Although it is reaching after infinity, it has a tendency to cause people to remember that there is something besides a commercial scale on which to base their thought and action, and an equitable division of dollars and cents will not complete the happiness of mankind.

## SUGAR PRODUCTION PER ACRE.

When the enthusiastic people of Hawaii want to enlarge on the excellence of this country as a land for producing sugar, one of the first things that is flaunted to the breeze is the remarkable yield of ten tons to the acre that has been recorded in a few districts of the islands. We appreciate fully the spirit in which these statements are made, and know full well that the intention is to spread abroad a good impression of the sugar-producing capacity of the country. Such extensive use has been made of these extreme figures, however, that an incorrect impression has gone abroad, and while it may even in its falsity, prove a passing benefit to the commercial interests far

ing church workers. Mr. Waterhouse's influence in all the walks of life has been a power for good, and his good works stand, a fitting monument to his name.

Planters of Louisiana, for instance, do not have an especially friendly feeling toward our reciprocity, and a coalition of Hawaiian and American interests when they are laboring under the impression that Hawaiian lands produce ten tons of sugar to the acre, while they have to struggle to get one ton from the same area. Aside from the direct injury such misrepresentation may do, it may be put down as a general rule that oversanguine representations are not beneficial in the end.

Professor Maxwell, in his position as director of the experimental station established by the Hawaiian Sugar Planters' Association, has come to know the injury that has been and may be wrought by false statements, and has taken steps to obtain an official figure of the average yield of sugar per acre for the manufacturing season of 1894-95, with the following result:

Number of acres of cane manufactured.....	47,399
Number of tons (2000 lbs.) of sugar made.....	153,419
Number of pounds of sugar made per acre.....	6,472

This statement is the only absolutely accurate official statement that has ever been issued from the country, as it includes every pound of sugar sent from the mill, whether exported or used by the plantation laborers. It will thus be seen that while there are lands which will give wonderful yields our general average drops to about three tons to the acre. It should also be called to mind that the Hawaiian crop is, on an average, eighteen months in growth, while the crops of Louisiana and other sugar producing sections occupy the ground only nine months. The nine months' crop of Louisiana cane averages 2600 pounds of sugar to the acre.

In this connection it is interesting to note the average sugar yields in the best sugar countries as given from the latest British consular reports. Germany leads with an average of 3330 pounds of sugar to the acre; next follows Belgium, with 3000 pounds; then France, with 2900 pounds; Austria, with 2555, and finally Russia, with an average of 1742 pounds to the acre. Hawaii has an advantage in the biennial crop as against the annual crops of competitors, but the truths told in official figures demonstrate that we are not so far above our competitors as current rumor might lead many to suppose, and we would suggest that when the enthusiasts are filled with a desire to boast on Hawaiian sugar production, they temper their statements with the facts as displayed by unquestionable figures—figures that show a healthy condition, which is more to be desired than a record of unreliable extremes.

## UNITED STATES BOND ISSUE.

If offers of money are proof of patriotism, the recent popular loan on the last bond issue made by Secretary Carlisle of the United States Treasury leaves no question of the high regard the American people have for their country's honor. The call for this last loan of \$100,000,000 on 4 per cent. thirty-year bonds was made on January 6th last. When the bids for the purchase of the bonds were opened on February 5th, offers had been received for five times the amount of the loan. The bonds, which are to be redeemable in coin, are to be issued in denominations of \$50 or multiples of that sum, as desired by the purchaser. They will be dated February 1, 1895, and will mature on February 1, 1925. This is the fourth bond issue during the present Administration, and although the Secretary of the Treasury was practically forced by Congress to make a popular loan, instead of dealing the lot out to a monied syndicate, it has been the most successful and reassuring of any Government loan made in many years.

For the first 5 per cent. loan made in February, '94, 235 bids were made, representing over fifty-two millions of dollars. The larger portion of this amount was bid in at the upset price of \$117.223. The amount awarded was fifty millions, on

which the United States Government realized a premium of over eight and one-half millions. The \$50,000,000 bond issue of November, '94 was all taken up by the Morgan bond syndicate at \$117.077, the Government realizing a premium of \$8,548,500. The gold purchase of February, '95, payable in United States 4 per cent. bonds, was also captured by the Morgan syndicate at the rate of \$104.496 per \$100, the Government thus realizing a premium of \$2,800,844. In this last deal the syndicate realized an interest of 3 13-16 per cent.

It is not surprising that the cry of possible fraud is raised in connection with previous loans, when under this last popular loan two-thirds of the accepted bids range above \$110.6877, showing that the bidders are satisfied with an interest which amounts to less than 3 1/2 per cent. But whatever this bond issue may suggest by way of reflection on the previous deals of the Administration, it demonstrates with absolute and gratifying certainty that the purse of the people of the United States is open to their government; that the government has no need to look beyond its own shores to supply its gold shortage; that the people of the country are confident of the sound financial condition of their country and are prepared to come to its assistance at all times.

The New Order Getting Into Line.

CAMP G. C. WILTZE ORGANIZED.

## Officers Appointed Last Night—The Vets Society Will Grow—Enthusiasm Among the Members—Invitation to the Grand Army Republic.

At the office of Dr. J. S. McGrew last evening the following named sons of veterans of the American civil war took the preliminary step towards the formation of a Sons of Veterans camp in the Hawaiian Islands, the only organization of its kind outside the United States: Louis K. McGrew, Louis Adler, Jr., F. E. Lynn, A. L. Patterson, L. Perkins, J. W. Short, C. B. Mangus, Geo. Dillingham and G. Overbeck.

Mr. McGrew was made chairman and the first business of the meeting was the election of officers, Mr. McGrew being made elected captain, F. E. Lynn first lieutenant, and J. W. Short second lieutenant. For camp council the names of Messrs. Patterson, Mangus and Dillingham were proposed and passed upon. After a short discussion it was decided that the name of the camp be "G. C. Wiltze No. 4," in honor of the late gallant commander of the U. S. S. Boston. The camp will operate under the California Division of Sons of Veterans, U. S. A. The camp council, acting with the captain, were instructed to secure a place for installation of officers at an early date, invitations to be extended to Geo. W. De Long Post, G. A. R., to attend the function.

The infantile camp of the Sons of Veterans exhibited signs of good health at the meeting, if enthusiasm of the projectors was a criterion. All were fervent in expressions of loyalty to the cause for which their organization stands.

The entire issue of yesterday's ADVERTISER having been exhausted an extra number of the semi-weekly GAZETTE, out today will be printed. It will contain a vast amount of interesting news.

Not To Be Treated With. (From Cincinnati Gazette.) Will people never learn that a cold is an accident to be dreaded, and that when it occurs treatment should be promptly applied? There is no knowing where the trouble will end; and while complete recovery is the rule, the exceptions are terribly frequent, and thousands upon thousands of fatal illnesses occur every year ushered in by a little injudicious exposure and seemingly trifling symptoms. Beyond this, there are today countless invalids who can trace their complaints to "golds," which at the time of occurrence gave no concern, and were therefore neglected. When troubled with a cold use Chamberlain's Cough Remedy. It is prompt and effectual. 25 and 50 cent bottles for sale by all druggists and dealers. BENSON, SMITH & CO., Agents for H. I.

## MEDICAL ASSOCIATION.

### Business Transacted and Important Paper Presented.

At a meeting of the Medical Association of Hawaii held in the office of Dr. Myers, Masonic Temple, last night, there were present, Drs. McGrew (chairman), Myers, (secretary), Herbert, Russel, Wood, Cooper, Weddick, Rodgers and Ryder.

Copies of the constitution and by-laws of the association were distributed to the various physicians present, and the following committee were appointed:

Nomination of Officers—Drs. Russel, Wood and Cooper.

Program—Same as executive committee.

Social Entertainment—Drs. Herbert, Cooper and Wood, with Dr. McGrew as ex-officio chairman.

Publication and Finance—Same as executive committee.

The executive committee as appointed at a previous meeting is composed of Drs. McGrew, Myers, Russel, Alvarez and Howard.

Dr. Russel read a paper which contained a list of suggestions regarding the most practical, local and scientifically interesting questions to be investigated by the society. This was ordered published and sent to all the physicians on the other islands.

The association decided to hold its next meeting in Honolulu some time during the month of May.

The Daily Advertiser 75 cents a month. Delivered by carrier.

## FINE = HORSE FOR SALE.

AN OPPORTUNITY TO PURCHASE A fine blooded driving animal, perfectly gentle and sound in every respect, is offered in a bay gelding by Marin, 5 years old, dam Kittle V by Volunteer. The horse is a fine driver and gives evidence of being very fast. The animal is now in the hands of an experienced trainer.

For particulars, apply to CHARLES DAVID, At Kapiolani Park Track, 4240-2w.

## FILTERS.

The report of the executive officer of the Board of Health relative to the condition of the Nuuanu reservoirs is suggestive of something dangerous to health. It also suggests filters, good filters, something that will effectually separate the water from mud and filth.

Nature has done much toward providing the people with necessities; it has also done a little toward securing for the people luxuries. In some localities a filter is a luxury, in others, Honolulu for instance, it is a necessity, but the natural filters that are sold have been much improved by the ingenuity of man.

Charcoal is admitted to be the most thorough purifying agent known, consequently Messrs. Slack & Brownlow selected it for use in the manufacture of their filters. And we are the agents for this particular brand of filter in Honolulu, a sufficient guarantee, by the way, of the character of the article.

The latest invoices show three different styles of the S. & B. Filters and these we have in stock, just opened them, in fact, and we want your attention.

No. 1, (we will call it No. 1) is fitted with a movable plate, so that when necessary, the carbon may be taken out and washed. It has also a movable lining allowing access to every part of the interior, which may be kept perfectly sweet and clean.

No. 2 and 3 are provided with the same conveniences for cleaning as the other, but they have the important addition that every part, including the pure water chamber, is accessible, giving them all the requirements of a "Perfect Filter."

The price of the S. & B. filter is below the others. You should have one, because it is a necessity.

PACIFIC HARDWARE CO.

NEWSPAPER ARCHIVE®

## LOCAL BREVIETIES.

The advertised letter list appears today.

C. Brewer & Co. have a full line of J. E. Miller's fertilizers.

A number of the Cook's tourists visited Ewa plantation yesterday.

A dividend on the capital stock of the Ewa Plantation Co. stock is due and payable today.

The stockholders in the Ewa Plantation Co. received a two per cent. dividend yesterday.

Minister Willis has confirmed the report regarding his departure for the States on April 15th.

Mr. Samuel Parker accompanied the remains of his son, Palmer, on the steamer Likelike yesterday.

Mrs. J. O. Dominis went to Pearl City yesterday by the 9:15 train and drove from there to Waialua.

Charles David has six horses in training at the track now. Some of these are the property of Paul Isenberg.

O Pacifico, a new Portuguese paper of which J. M. Teixeira is editor, made its first appearance on Saturday last.

Professor James W. Price, the aeronaut, has joined the Wirth Circus Company and will leave with it for Japan.

The publication of the Friend will be delayed until the end of the week on account of the illness of Rev. S. E. Bishop.

The ladies of Lihue, Kauai, have formed a reading club, which will hold weekly meetings at the homes of various members.

The Club Stables property sold at receiver's sale on Saturday, brought \$6300. E. G. Schumann was the purchaser.

Charles David offers a thoroughbred horse for sale. Particulars may be obtained from Mr. David at the Kapiolani Park track.

E. O. Hall & Son call attention to some very superior breaking plows. Also furrow plows and other agricultural implements.

Detective Kaapa will leave for Hawaii on the steamer Hawaii today on business connected with the Police Department. Good luck David!

C. Hedemann has been appointed manager of the Honolulu Iron Works, vice Alex. Young resigned. The position of consulting engineer has been tendered Mr. Young and accepted by him.

The Hawaiian Rowing Association held a meeting on Saturday and decided to hereafter hold the annual regatta on May 2d instead of in September, as has been the custom for years.

There was 84.100 inches of rain in the Punahoa district in thirty-five minutes yesterday afternoon. Heavy rains are also reported from Maunawili to Kahuku but none at Waialua or Waianae.

Senator Baldwin has given orders for plans to be drawn for the reconstruction of the native church near Lahaina, where his father once preached. As much of the old stone work will be used in the new edifice as possible.

Minister Willis called at the Foreign Office yesterday with Captain Pigman of the Bennington and Commander Watson of the Adams and arranged with Minister Cooper for an official call on President Dole at 11 o'clock today.

Dr. Y. S. Sun, the prominent Chinese doctor, lectured again before the Chinese-English Debating Society last Friday evening. His remarks were confined to the digestive apparatus. A large number were present at the lecture.

The Appropriation bill will come up in the Senate today and the second reading probably completed. The opium bill and the bill for appropriations from current accounts will probably be reported by the Printing Committee.

**THE PROPER TIME**  
When the most benefit is to be derived from a good medicine, is early in the year. This is the season when the tired body, weakened organs and nervous system yearn for a building-up medicine like Hood's Sarsaparilla. Many wait for the open spring weather and, in fact, delay giving attention to their physical condition so long that a long siege of sickness is inevitable. To rid the system of the impurities accumulated during the winter season, to purify the blood and to invigorate the whole system, there is nothing equal to Hood's Sarsaparilla. Don't put it off, but take Hood's Sarsaparilla now. It will do you good. Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable, grateful people. They tell the story.

**HOBSON DRAKE CO., wholesale agents.**

Daily Advertiser 75 cents a month. Delivered by carrier.

## NEW BILLS ARE SCARCE.

House and Senate Adjourn at an Early Hour.

## EDUCATIONAL FUNDS REPORTED.

Senate Committee Favorable to Appropriations—Amendment to Land Act Reaches the House—More Money for Insane Asylum—A Port of Entry.

MONDAY, March 2.

The Senate opened at the usual hour. After the opening exercises, the clerk read communications from the clerk of the House stating that the Senate bill regulating the biennial period has passed the House; also the House bill making Kaliua a port of entry.

Senator Lyman reported, from the Committee on Public Lands, on the House bill giving the Minister of the Interior right to make certain leases. The committee made extensive amendments.

Senator Wilcox, from the Committee on Public Health and Education, reported favorably on the increased appropriations for the Board of Public Instruction. A report was also made favoring the increased appropriation for assistants at the Insane Asylum.

The report on the items concerning public instruction was as follows: "Your Committee on Education having had under consideration the

House of Senate Bills Nos. 2 and 4 as passed February 28. Communication accepted and the two bills made the order of the day.

Rep. Hanuna announced his intention of introducing an Act amending the laws of 1865 relating to sections where there is a difference between the English and Hawaiian versions of the laws.

Senate Bill No. 2, relating to the granting of authority to the Minister of Finance to secure funds temporarily on loan for the payment of current accounts, passed its first and second readings and, upon motion of Rep.

THE ABOVE DESIGN SUBMITTED TO THE COMMITTEE ON THE GREAT SEAL BY "REPUBLICAN" HAS ATTRACTED MUCH FAVORABLE COMMENT.

items of the appropriation bill pertaining to the Bureau of Public Instruction find that, owing to the large increase in the number of pupils, the duties of the Inspector-General of Schools has been growing in importance and difficulty, and that no one person can attend to them.

"Also that the District of Honolulu, taking both Government and independent schools into account, contains about one-third of the school children of the country.

"We would recommend the salary of deputy-inspector and school agent for Honolulu pass as in the bill.

"We find also that there has been an actual growth in the duties of the clerk and secretary, and that the duties required of him are such that only a first class man can fill them; that the Board of Education asked for a slight increase in his pay, but that it has been reduced in the bill to \$3000, which is \$1800 lower than it was last period.

"We recommend that it pass at \$3000.

"We find that the pay roll of the English, Hawaiian and Common schools during the last few months of the last biennium period amounted to about \$15,000 a month, and that if the growth of the present period corresponds with that of the last, it will amount to over \$17,000 before the end of this period.

"We recommend that the item pass at \$16,000 a month, or \$384,000.

"We recommend to strike out the next item of \$12,000 for additional support of English, Hawaiian and Common schools for 1897."

The committee also recommended that the item in the Appropriation bill, "Pay of assistants of the Insane Asylum" be passed at \$21,954.

Under the regular order of the day, House bill No. 2 making Kaliua, Hawaii a port of entry came up. The bill passed the first reading, also the second, under suspension of the rules.

In answer to a query from Mr. Brown Minister Damon said that vessels could discharge at Kaliua by making application at a regular port of entry.

On motion of Senator McCandless the bill was referred to the Committee on Commerce.

Senate bill No. 7 appropriating \$15,000 for the expenses of the session, passed the third reading by unanimous vote.

House bill No. 1 regarding leases made by the Minister of the Interior with report of the committee was taken up for second reading. The changes made by the committee were so extensive that the bill and report were referred to the printing committee. No further business coming before the Senate a motion to adjourn was carried.

**House of Representatives.**

Chairman Naone announced that he had received the transmission of the opening address of the President.

Rep. Hanauha moved that the address be accepted and placed on file. Carried.

A communication from the Senate announced the transmission to the

Marker Who Made Hilo's Big Score the Trouble.

## CAPT. AUSTIN ANGRY.

## FITZSIMMONS WINS IT.

Fight Lasts Ninety Seconds Only.

## CAPTAIN MORSE IS DEAD.

Doctor Williams Gives His Friends a Surprise—Funds for New Organ Raised—Petition for Street Lights—Japanese Laborer Drowned, etc.

HILO (Hawaii), Feb. 26—Hilo is still without a deputy-sheriff; but, with a new captain of police, in the person of ex Sheriff Williams at Honomu, and a full force of policemen at Hilo, the people feel protected in spite of the missing officer.

Captain Austin, of the Hilo Rifle team has had his patience sorely tried this week, and his ire considerably raised through the indiscretion of some unknown party or parties. Saturday, the 22nd, was set for shooting against the score made by the Honolulu team, and the Hilo team, in all earnestness, determined to beat the score and claim honors. Unfortunately, the marker was not a reliable person, and either was bought or "wanted to see the Hilo boys win," as he said. Twos were marked fours and threes were marked fives, but, before the suspensions of Captain Austin had been aroused, the team had scored 432 points. The target was called in and the cheat discovered, greatly to the indignation and disgust of the captain and his team. It is more than likely that the party responsible for the trick will meet with rough treatment from some one.

The leap year dance given by the ladies of Hilo, in concluding the social season preceding Lent, was a most successful affair. A coterie of Hilo's fair ones made all arrangements for the dance, and were present to receive the gentlemen as they entered the hall. There were some sixty or more guests present, and gaieties of the evening were indulged in until a late hour. Eatables and drinkables were furnished and added zest to the evening's pleasures.

On Thursday evening the Hilo Social Club was entertained at the home of Sheriff Hitchcock. A large number of the members of the Club joined in a horseback ride, while others remained indoors and entered into conversational matches. When the riders returned a general good time was had; ice cream and cakes were passed and good nights were sung.

The home of Mr. and Mrs. Severance was the scene of an interesting and delightful entertainment on Tuesday evening, when Rev. Mr. Lydgate furnished the many present with an evening's enjoyment, consisting of a lecture, accompanied by tableaux and stereopticon views. His subject, "Mary, Queen of Scots," was aptly chosen, and his tableaux greatly assisted his well prepared remarks. The beautiful lantern productions recalled scenes throughout her life.

The ladies of the First Foreign Church are quite jubilant over their final success in gaining for the church a valuable pipe organ which they have so long desired. The largest contribution comes from Hon. Alex. Young, who has also assisted the ladies in getting other contributions.

Messrs. J. W. Bergstrom & Sons will probably be awarded the contract for furnishing the organ, which is to cost \$2000. Plans are under way for the reconstruction of that portion of the church in which the organ is to be built.

A very quiet wedding occurred this week when Louis T. Grant, Superintendent of the Hilo Electric Light Co. and Mrs. Emma Stevens became man and wife.

One hundred persons lost their lives in an explosion Viedendorf, South Africa.

## MONOWAI TO BE DISPLACED.

So Says James Mills of the Union Steamship Company.

James Mills of New Zealand, managing director of the Union Steamship Company, which operates a line of fifty steamers between New Zealand and Australia and between the Colonies and the islands of the South Pacific, is staying at the Occidental Hotel, says the San Francisco Chronicle of Feb. 17th. He is on his way to England, where the company now has several fast steamers in course of construction.

The Union Steamship Company owns the Monowai, and Mr. Mills says that in the near future a larger and faster vessel will be put on the run between here and the Colonies in her stead.

## FRENCH CABINET CRISIS.

Ministers Ignore the Vote of the Senate.

The Situation Decidedly Deteriorates—Effort to Overthrow the Radicals.

## CUBAN REBELS UNITE FORCES.

General Weyler Planning to Rule with an Iron Hand—Watching Filibusters—Fitzsimmons—Maher Fiasco—Troubles in Corea—War Clouds.

NEW YORK, Feb. 16.—The Herald's Havana special says: Word comes from San Antonio de los Baños that the insurgent forces of Gomez and Macero reunited yesterday beyond Sevillas de Agua, near the Pinar del Rio border. The rebel chiefs held a council of war and appointed Jose Matias Aguirre in immediate command of revolutionary forces operating in Havana province, while the Bermudez in Pinar del Rio was confirmed. Rolfe is in temporary command of operations around Matanzas. Capote, with 1200 cavalry reinforcements from eastern Cuba, has just joined Gomez.

General Weyler spoke only the truth when he admitted yesterday that he found affairs in Cuba from a military point of view considerably disorganized.

When Captain-General Weyler

## RUSSIA'S POWER FELT.

Troubles in Corea Said to be Significant.

Naval Activity by Japanese Russia and the Sultan Conforming.

PARIS, February 16.—The Cabinet has decided to ignore the vote taken in the Senate yesterday, which was a repetition of a vote of that body on February 11th, deprecating the irregularities disclosed in connection with the Southern Railway scandal, and demanding a searching inquiry. The newspapers here express the belief that no issue from the Cabinet crisis is possible except through the resignation of M. Ricard, Minister of Justice.

According to a semi-official statement, Bourgeoise, the Premier, had an interview with President Faure on Sunday and explained that the conflict of the Senate with the Chamber had assumed such a character that the resignation of the Ministry would not solve the crisis. The Cabinet had therefore decided to await the further expression of the Chamber, the Ministers agreeing that they can no more yield to the Senate than they can disregard the confidence of the Chamber.

A dispatch to the London Post says: The real origin of the crisis is the determination of the Senate to overthrow the Radical Ministry or to die in the attempt.

The Paris correspondent of the Times telegrapher follows to that paper: The Cabinet has sounded a clear note. If it succeeds it is nothing more nor less than a coup d'état. If it fails it is an act of violence to no good end. The setting aside of the

World's Tokio special says: There is great activity among all naval forces. The Japanese government is confident that Russia is encouraging the revolt in Corea with a view to the early establishment of a Russian protectorate over the kingdom. The seat of the Corean government is now in the Russian legation at Seoul, where the king remains guarded. It is believed that the king of Corea authorized the outbreak, in revenge for the murder of the queen.

The Emperor of Japan suspended the sitting of the Parliament for ten days in the midst of opposition attacks on Premier Ito's ministry.

Confirmed at Washington.

WASHINGTON, Feb. 17.—Secretary Herbert today received a cablegram from Admiral McNair commanding the Asiatic station, confirming the newspaper reports of the renewed disturbances in Corea. The cablegram was sent from Naga-aki, Japan, and is in the following words: "Telegraphic information has been received from the commander of the Machias, via Chefoo, China, as follows: 'There is much excitement in Seoul, Corea. The king has gone to the Russia legation and ordered the arrest of the Corean cabinet. A guard has gone to Seoul. The telegraph wires have been cut. Two men have been killed.'

At the Corean legation it was said there had been no advices received, and the only information is that obtainable from the newspapers.

## Russo-Turkish Alliance.

CONSTANTINOPLE, February 17.—After inviting the powers to recognize Prince Ferdinand of Bulgaria, the Porte, at Russia's request, sent a second circular asking the powers to defer their decision until after Prince Boris had been baptized. This is held to furnish proof of the Russo-Turkish entente.

## ARRIVAL OF THE ADAMS.

List of Officers—Her Trial Trip in Frisco.

The U. S. S. Adams, E. W. Watson commander, arrived yesterday afternoon, 12 days from San Francisco. Generally pleasant weather was experienced throughout the voyage. Following are the officers: E. W. Watson, commander; Lieut. N. R. Harris, executive officer; Lieut. F. E. Greene, navigator; Lieut. H. W. Harrison, ensign; C. S. Stanworth, ensign; H. H. Hough, ensign; C. F. Preston, watch officer; P. A. engineer, W. H. McElvoy, chief engineer, P. A. Surgeon; G. T. Smith, surgeon; F. J. Semmes, assistant paymaster.

Speaking of the trial trip of the Adams, just previous to her departure for Honolulu, the S. F. Chronicle says: The United States steamer Adams returned from her trial run to sealate Saturday night. The board, headed by Captain Clark, United States Navy, which conducted the test and will report on it, seemed very much satisfied with the performance of the vessel, and its findings will commend the repairs made. It is unofficially given out that she developed a speed of 100 knots when forced, and that everything worked in a highly satisfactory manner.

## The Kindergarten Club.

What charities and benefits the people have all patronized the past month! Their name has been legion, and every class and club has had a veritable struggle for existence. But the kindergarten club has survived. It may be that some persons entertain doubts of its vitality, but they have only to attend the regular 3 o'clock meeting at Queen Emma hall this afternoon to judge for themselves. The members of the club will have a cordial welcome for all, and Mrs. Dumas will give an interesting talk on the second gift—the sphere, cylinder and cube.

## WEEKLY NEWS NOTES OF MAUI.

Mrs. Rosecrans Dies from Injuries. Japanese Evening of Literary Society—Stevedores Threaten to Strike. Social News and Shipping Notes.

MAUI, Feb. 29.—The beautiful moonlight of last evening caused an unusually large attendance at the monthly meeting of the Makawao Literary Society, which event took place at the elegant residence of Mr. and Mrs. J. W. Colville of Pāia. The large parlors were more than filled—quite a number coming from Spreckelsville, Kahului and Wailea.

It was a Japanese evening. The veranda decorations were à la Japaneze, and the young ladies who presided over the tea-tables were garbed in kimonos as well as the eight or ten little girls who took part in the entertainment.

The first part of the programme consisted of marches, songs and tea-drills by eight little maids from Tokio. Then came humorous shadow scenes in which a lusty Turk and a modest Japanese maiden were principal characters. Miss Beckwith sang the words of this thrilling romance. The last part of the programme was a lecture on Japan by Rev. J. Oyabe which was much appreciated by his audience. Unique metaphors and startling bits of rhetoric giving spice to the discourse. Mr. Oyabe's lecture was illustrated by twenty-five beautiful views of the most enterprising country of the Orient.

During Sunday, the 28th, a Portuguese boy, ten years of age, named Marian Ambrose was drowned in one of the Hamakau-poko reservoirs. The lad was bathing in the Haiku ditch and was carried by the current into the deeper water of the reservoir.

Antone Fernandez is running an express from Pāia depot. It is the first and only public conveyance in the vicinity and will be liberally patronized.

Police Captain Scott and wife have been visiting in Wailea and Makawao during the week.

W. C. Crook, Jr. who has been in California for several years and for the last six months in Alaska is making his parents in Makawao a brief visit.

Wood is sold and delivered in Makawao at \$5 for a single cord and at \$4.25 in quantity. A few years ago it was \$14.

On Wednesday, the 28th, Purser Wallace of the Claudius was fined \$200 in the Wailea police court, charged with "opium in possession." He appealed to jury. Wallace had the key to the freight-room in which was an unclaimed box containing 22 lbs of opium marked "W. C. Hana." Recently the opium smugglers of Wailea and vicinity are sending their contraband goods ashore in packages marked with names of prominent people of irreproachable character.

Fred Stoltz of Wailea is in the hospital.

It may be interesting to some Honolulu people to know that Ira Van Camp "skipped" the country last week most unceremoniously. Having been refused a passport by the collector he went aboard the Claudius ostensibly bound for Hana. When the steamer threw off the line by which she had towed the brig Lurline out of Kahului harbor, she got headway on and ran close up to the brig. At this moment Van Camp called out, "A passenger for San Francisco!" and the Lurline's small boat was lowered and the transfer was made.

Mrs. Rosecrans, the mother of Mrs. Osmer Abbott of Lahaina and Mr. Rosecrans of the Kipahulu school, died on the 14th inst. from injuries received in the runaway accident which occurred in Lanai during the same day.

"Opium" Brown left Maui during the 22nd inst. He will return however in two months, so it is said.

During Wednesday, the 28th, at 4 a. m.—thirty or forty native longshoremen employees or recently so of the Kahului Railroad Co. packed the end of the pier at Kahului and awaited the arrival of the Claudius's shore boats, their intention being, so it is stated, to prevent the landing of eleven new men which Superintendent R. R. Berg was bringing from Honolulu. Deputy Sheriff Carter and several policemen were called to the scene, so no demonstration was made and the incipient strike was at end for the present. It seems that during last week while some of the men were at work aboard the steamer Kahului, they, while still in the employ of the railroad company at \$1.50 per day, entered the service of Capt. Tyson at \$2 per diem. Upon refusal to obey the command of Superintendent Berg "to come ashore," were discharged and men to fill their places were brought from Honolulu.

Dr. Reed of the Colonial Sugar Company of Australia has been inspecting Maui plantation during the week. Yesterday, the 28th, he went over Pāia and expressed himself as both surprised and pleased at the uniformity of growth of the cane, etc.

J. D. Spreckels & Co. recently sold the brig Lurline to the Hawaiian

Commercial Company. It is the first and only vessel owned by the company.

President Wright of Wilder & Co. has been on Maui during the week.

During Saturday afternoon, the brig, the steamer Kahului, Tyson master, departed for San Francisco with 2,250,000 pounds of Pāia and Hamakau-poko sugar and 156 lbs pounds of H. C. Co.'s sugar the total value being \$84,385.61. No passengers.

The pack keeper is about half unloaded and the schooner Orga is awaiting her turn to discharge her lumber.

Weather.—South wind in the trades have alternated with the week. One night (Thursday) was very rainy, raining from 1 inch to inches in different localities.

## A PECULIAR CASE.

Physicians Puzzled by the Experience of Mrs. Bowen.

The Episcopal Hospital Said She Had Consumption.

(From the Record, Philadelphia, Pa.)

From no place in the world come stranger cases than from a city hospital. Some are terrible, some horrible, many wonderful—some mysterious.

Last July the Episcopal hospital admitted a woman whose pale and emaciated face and drooping prostration proclaimed her the victim of that dread disease consumption. She gave her name as Mrs. Sallie G. Bowen, wife of Mr. G. Bowen, residence, 1849 Vaughan St. The case was diagnosed and she was told fully, but plainly, that she was in advanced stage of consumption. The examining physician even showed her the sunken place in her breast where the cavity in her lung was supposed to exist. She went home to her family a broken, disheartened woman with death staring her in the face.

That was the beginning of the story, and was told by Mrs. Bowen, who no longer expects to die, to a reporter who visited her home.

"I have been an ailing woman for many years," she began, "my trouble being in the throat and chest accompanied by a weakness that cause numerous fainting spells. In July, 1893, I fell from a hammock striking my hip and injuring my side. From this time on my trouble rapidly developed until the last of October, when it became so serious that I was nearly crazy with pain, pain so terrible that it baffles description. Our family physician was called in and for the time being, allayed the pain but the relief was only temporary. Why I was so bad that the physician sat by my bedside and gave medicine every fifteen minutes. The first symptoms of consumption came in the form of terrene sweats, both night and day. From April until September I was constantly cold and kept wrapped up in blankets through the hottest weather. A terrible cough took possession of me, my breast was sore to the slightest touch, and my limbs were like cold clay. The hardest rubbing with the coarsest towel would not create the slightest flesh, and the least exertion would so exhaust me that I could barely gasp for water."

"It was in July," as you know, that I went to the hospital, the last haven of hope, instead of which I received, as I then believed the terrible verdict of death. I continued under the hospital treatment, their kindness and liberality I will never forget, going to the country at their suggestion, but despite all they could do for me death seemed to grow nearer.

It was when the clouds were the darkest that the first glint of sunshine came. Mr. Sheldene, a friend, who lives around at 1844 Clementine St., said to me, Mrs. Bowen don't you ever try Dr. Williams' Pink Pills for Pals. I had never heard of the medicine but in my condition could not turn a deaf ear to anything that offered relief. It was after considerable thought and investigation that I concluded to discontinue all the medicine I was taking, including cod liver oil, and depend entirely upon Pink Pills. That required courage, you say, not so much when I believed that I had to die soon anyway. I began to take the pills at first with but little encouragement.

The first sign of improvement being a warmth and a tingling sensation in my limbs. Finally the cough disappeared, my chest lost its soreness and I began to gain flesh until I was fifteen pound heavier. All the I owe to Dr. Williams' Pink Pills and I cannot praise them too highly."

An impoverished condition of the blood, a disordered condition of the nerves, if a fruitful source of most ills that afflict mankind, and to any thus affected Dr. Williams' Pink Pills offer a speedy and certain cure. No other remedy has ever met with such great and continued success, which is one of the strongest proofs that Dr. Williams' Pink Pills accomplish all that is claimed for them. They are an unfailing cure for locomotor atrophy, partial paralysis, St. Vitus' dance, sciatica, neuritis, rheumatism, nervous headache, palpitation of the heart, nervous prostration, diseases depending upon vitiated blood such as scrofula, chronic croup, etc. They are also a specific for troubles peculiar to females, curing all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature.

These pills are manufactured by the Dr. Williams Medicine Co., Brookwill, Canada, and 46 Holborn Viaduct, London, Eng. They are put up in round glass bottles, the wrapper covering which bears the full trade mark, "Dr. Williams' Pink Pills for Pals People." As there are limitations of this wonderful remedy, see that the above trademark is on every package you purchase, and promptly refuse all imitations and substitutes.

Dr. Williams' Pink Pills are sold by The Hollister Drug Co., Honolulu, wholesale agents, and all dealers in medicine

## HOLLISTER DRUG COMPANY.

## For Twenty Years

We have been tailoring at moderate prices.

Twenty years of experience to profit by.

Our KNOWLEDGE of CLOTHES for STYLE, FIT, and WORKMANSHIP, have stood the test as the liberal patronage we have received assures us of that fact.

We have just received our fall stock of woolens, which we are offering at prices that will astonish you.
